

The Urban Assembly School for Global Commerce
Ms. Familiare, Digital Arts

Marquee Tool: use this to select rectangular or elliptical areas of a layer or the canvas.

- **Feathering** creates a softer edge at the selection's border.
- **Anti-aliasing** creates a crisper outline.

Lasso Tool: a free-hand version of the marquee tool. Use this to define an area in any shape you can draw.

Gradient Tool: Create gradual colored shading of two or more colors.

Move Tool: this lets you move whatever you've selected around the canvas

Erase : Use the erase tool to remove details

Shortcut for **Copy:** Ctrl + C
